Since January 2005, Basis Developments Ltd. has been an authorized reseller of the GSW [Telnet Server for Windows](#) and SSH Server for Windows. Located in New Zealand, Basis Developments is a specialist provider of the Basis Warehouse Management System for cool/cold/dry storage inventory control.

"We really appreciate the 10 years that Basis Developments has been a GSW Reseller," said Doug Hitchcock of Georgia SoftWorks. "They service a variety of warehousing and supply chain companies, so they work perfectly with the products that GSW offers. We look forward to celebrating more milestone anniversaries with Basis Developments."

Founded in 1986, [Basis Developments](#) started as a small, local enterprise and now serves a global market offering all the features needed in inventory control systems. They provide individual item traceability, including Receiving, Putaway, Order Pick, and stocktake functions using Radio Frequency and Batch Scanners. Basis Developments has over 20 years' experience in providing warehouse systems to the cool/cold chain industry in New Zealand, Australia, United States, Canada and Mexico.

Georgia SoftWorks is a software development company located in Dawsonville, GA (USA) who has obtained global recognition with their development of the GSW [Telnet Server for Windows](#) and [SSH Server for Windows](#). Their software is used in a variety of industries, with resellers and end users all over the world.

The Georgia SoftWorks' [Telnet Server for Windows](#), [SSH Server for Windows](#) and client applications are industrial quality software designed for superior operation in demanding mobile RF Terminal Environments, such as warehousing, making it an excellent match for the solutions that Basis Developments provides.

About Georgia SoftWorks:

Established in 1991, Georgia SoftWorks is a privately held software development company recognized for creating high performance data communications, system and telecommunications applications. Georgia SoftWorks has obtained a worldwide presence with its industrial SSH/Telnet Server for Microsoft Windows. GSW's long-term commitment to SSH/Telnet has led to the pioneering of major features such as Session Shadowing, Session Monitoring, Graceful Termination, Automatic Logon, Logon Scripting and more recently Team Services technology which allows mobile device users to transfer, swap, share and recover mobile device sessions. GSW has also provided the very first SSH Server to provide Digital Certificate Authentication with Internet Information Server (IIS) like certificate to user account mapping. This includes 'One-to-one' and 'Many-to-one' mapping methods and also support certificate trust lists (CTL).

Georgia SoftWorks

“ The GSW products are industrial quality software designed for superior operation in demanding mobile RF Terminal Environments, such as warehousing, making it an excellent match for the solutions that Basis Developments provides.
